Although MDA and High and Wild has taken reasonable steps to provide you with equipment and skilled guides so you can enjoy an activity for which you may not be skilled, we wish to remind you; this activity is not without risk. Certain risks cannot be eliminated without destroying the unique character of the activity.

1. I acknowledge that rock climbing, canyoneering, rappelling and all activities relating to ropes course training including but not exclusive to rope ascending, tyrolean traverses, zip lines, entails known and unanticipated risks which could result in physical or emotional injury, paralysis, death, or damage to myself, my property or to third parties. I understand that such risks cannot be eliminated without jeopardizing the essential qualities of the activity.

The risks include but are not limited to: The hazards of walking on uneven terrain and slips and falls; being struck by rockfall or other objects dislodged or thrown from above; the use of climbing ropes and equipment; the forces of nature, including lightning and rapid weather changes; the risks of falling off the rock; the risks of exposure to insect, reptile or animal bites; the risks of hypothermia or heat exhaustion/ sun stroke; my own physical condition; the physical exertion associated with this activity.

Furthermore, MDA and High and Wild guides have difficult jobs to perform. They strive for safety, but are not infallible. They may be unaware of circumstances which could contribute to the risks of the activity including: the participants fitness or abilities, the weather, the elements, the terrain. They may give inadequate warnings or instructions, and the equipment being used might malfunction or fail.

2. I expressly agree and promise to accept and assume all of the risks existing in this activity. My participation in this activity is purely voluntary, and I elect to participate in spite of the risks.

3. I hereby voluntarily release, forever discharge, and agree to indemnify and hold harmless MDA and High and Wild from any and all claims, demands, or causes of action, which are in any way connected with my participation in this activity or my use of MDA's or High and Wild's equipment or facilities, **including any such claims which allege negligent acts or omissions of MDA or High and Wild.**

4. Should MDA, High and Wild or anyone acting on their behalf, be required to incur attorney's fees and costs to enforce this agreement, I agree to indemnify and hold them harmless for all such fees and costs.

5. I certify that I have adequate insurance to cover any injury or damage I may cause or suffer while participating, or else I agree to bear the costs of such injury or damage myself. I further certify that I am willing to assume the risk of any medical or physical condition I may have.

6. In the event that I file a law suit against MDA or High and Wild, I agree to do so solely in the state of Utah, and I further agree that the substantive law of the state shall apply in that action without regard to the conflict of law rules of that state. I agree that if any portion of this agreement is found to be void or unenforceable, the remaining portions shall remain in full force and effect.

By signing this document, I acknowledge that if anyone is hurt or property is damaged during my participation in this activity, I may be found by a court of law to have waived my right to maintain a lawsuit against MDA or High and Wild on the basis of any claim from which I have released them herein.

I have had sufficient opportunity to read this entire document. I have read and understood it, and I agree to be bound by its terms.

***Petzl/Absorbica Combo**

The combo is a VERY specialized climbing safety system that was designed and PQ-certified by Petzl. This unit will result in a much more efficient (and safe) system for specific climbing sections in the race. This configuration is highly-specialized and is the ONLY one that has been thoroughly tested to withstand the shock loads racers would encounter in an emergency situation. It is the lightest (13 oz.) and safest system available and will be the only system of this type allowed in the competition. To alleviate your load in carrying this 13oz. system, we will only require this on certain climbing sections.

These items do not replace any item already on the climbing gear list. This is specifically a back-up safety system that you will be using during a portion of the race. Do not ask about utilizing a different ascender (or carabiner or absorber) as this is for your safety. You will be shown how this system works during the climbing skills check.

A very limited supply of these 3 items can be found at “**SHOP PQ**” on the Primal Quest website.
